Prologue

In the ever-evolving landscape of education, competitive examinations have emerged as crucial milestones for school children. These examinations not only assess knowledge but also cultivate essential skills and attributes that are invaluable in the journey of personal and intellectual growth. Unacademy supports and nurtures young talent and helps them develop their knowledge base and skill set in order to pursue a successful career in a wide range of specializations in Medicine and Engineering. At Unacademy, we believe in taking early initiatives to prepare children for their competitive goals and therefore support students from very early phases in their education. Our courses cater to students studying in Class 6 and go up till those who are appearing/have passed Class 12.

Unacademy Integrated Program (UIP) is one such initiative that helps Learners in their early preparation and enables them to build a strong foundation. It offers collaborative educational programs to schools in India for their students who are preparing for boards and competitive exams simultaneously, providing an opportunity to grasp fundamental concepts and tackle more complex topics that may appear in the exams.

Unacademy Integrated Program offers a unique synergy where students can excel in both their board exams and competitive entrance tests. We understand the importance of striking the right balance. Our program includes a strong emphasis on character development, critical thinking, and soft skills. It also ensures a smooth transition from school curriculum to competitive exam preparation, reducing the stress and workload on students.

These programs combine board exam preparation with competitive exam excellence and each student receives personalized attention to identify their strengths and areas of improvement, creating a customized study plan that ensures success. It is not just about preparing students for exams; it's about preparing them for life. Together, we can shape the future of our nation by empowering our Learners.

Founders' Note

Education is not just the foundation of our society but also the cornerstone of our future.

Over the years, we at Unacademy have been deeply committed to enhancing the academic journey of countless learners, providing them with the resources and guidance they need to thrive in today's competitive environment. As we take this momentous step forward, we are thrilled to announce our School Integrated Program to enable a headstart for Learners to unlock their full potential.

Our meticulously curated content taught by Top Educators, and cutting-edge tech features such as 24x7 doubt solving and recorded online classes and more are crafted with one singular purpose: to elevate the learning experience and set our students on the path to success.

Learner Testimonials

"Moving to Unacademy has changed my life, very helpful in my academics. There is major improvement in how I study and I have constant support from Educators. They guide us very well. There are regular tests that also keep our preparation on track."

Varsha S. Reddy

IIT JEE Aspirant (Harvest International School, Bengaluru)

"Ever since I have enrolled in UIP, the way I study has completely changed. I really feel our Educators are very caring and helpful. There is great infrastructure and their food is extremely hygienic and tasty. This entire environment has given me confidence that I can crack the exam."

M Joshi Lasya

IIT JEE Aspirant (SVDA Junior College, Tirupati)

"I have found Unacademy to be of great value for students like myself who are preparing for competitive exams. The Educators, study material and overall experience is in line with the requirements of aspirants."

Dhanaavi Badani
